"I think the flushing of the streets is a good method," said Mr. Stewart from his place on the right, "although I do not consider the test of last Saturday night a success. That, however, was mainly due to the nozzle used, and can be remedied, as we do not want the sand washed out, and the paving destroyed. I think the idea is all

"I am like Mr. Stewart," said Member Challis. "The hose will keep the paving as clean as any sweeper, and when the work is done they smell sweeter, and look well."

"I was out the night they washed the streets," said Mr. Kent, "and staved with the force until midnight. In my mind it is a failure. It washes out the sand and wastes water. Then walks, which will mean dirt and sand on people's lawns. The men who want a street sweeper are business men. They pay taxes, and lots of them, and their request deserves some recognition, particularly when it will do as much good for the rest of the city. Another argument against water is that it wears out hose, and hose costs \$45 a section. The bricks are made them off. I am in favor of buying a Peake declared for a vehicle tax. sweeper, because I think it will do

There was silence then for the space of half a minute which was broken by Mr. George with the remark that he, too, was opposed to flushing. "It is too expensive for council to tie to," he said, "but something must be done for the streets are in awful condition. I think a sweeper is just what we want."

Mr. Peake wanted to hear C. O. Hershey, the agent, say a few words, but Mr. Kent got the floor, and reminded them of what had been seen very good work, and improvements had since been added. Challis interrupted with the remark that he had been told the machine threw dirt on denied as the scheme of those who oppose a sweeper.

"A sweeper is going to cost money," said Mr. Horwell, "and to maintain it will be an expense. I think we could raise this by a vehicle ordinance, and if the two were worked in connection this difficulty would soon be settled. All the money we can get now goes to expenses, and there is a building in which the machine must be stored and a team to haul it to be considered. The streets are already falling into decay, and we have to keep them up.

We have a building," said Mr. Kent, "where the city commissioner's tools are stored. That costs \$3 a month, and a sweeper is a tool. One man can run the sweeper, and another and a team can gather up the dirt. The commissioner has two men scraping all the time, and we won't need them with a sweeper. It is the old line which comes down the creek to the Cleveland and Pittsburg, and then reaches out along the valley to this city. That a move is on no one will deny, but whether it amounts to any-

thing is a different story. One argument in favor of the road being built next year is the fact, not generally known, that the Lisbon men have leased all the coal along the proposed line. There are several thousand acres under which is some of the best coal in Ohio and every bit of it has been taken up. Some of the leases were made a year ago, and all are so worded that there will be slight difference in the mine owners unless some one pays a good price for the

A SCOUTING PARTY FIRED ON.

An Agreement Among the Indians to Make Trouble to Get Their Rations Increased-Parties of Utes and Sioux Seen. Coppinger Heard From.

MARKET LAKE, Ida., Aug. 2 .-- A courier just in from Rexburg says two white men have been killed by Indians on Trail creek, this side of Jackson's Hole. The mail carrier between Jackson's Hole and Teton Basin is thought to have been killed by Indians. When last seen he was crossing Teton Divide

A St. Anthony special says: The people of this and surrounding towns are still very much excited over the Indian scare and almost every hour brings

ity of Marysvale for two or three days past, and live were delegated to ascertain what the Indians were doing. The understanding between these men was that they should meet at a certain cabin of Indians surrounding it, who at once commenced firing. Three of the men returned to Marysvale, but one Wilson and Captain Harris have not as yet re-turned, and it is feared that their lives

have been taken.

A Lander, Wy., special says: The Indians are encamped near Oregon Buttes. The people of Dubois are still keeping a sharp lookout. The Shoshones say taey are starving and would rather die fighting soldiers than starve. There is an agreement among the Res. There is an agreement among the Ban nocks, Utes, Lemhis and Shoshones that at the proper time, the government will be informed that peace can be se-cured only by increasing their rations.

A Washington special says: Gov-ernor Richards has sent the following dispatch to the commissioner of Indian affairs: "I have reliable information that 200 Indians, supposed to be Utes, that 200 Indians, supposed to be Utes, have been seen near South Pass, Fremont county. Also a party of seve... Sioux on Dead Water creek, same county. All were mounted, armed and without we nen and children. The people of Fremont county are under arms and 1 ady for resistance. Can these and all Indians in Wyoming be called to their respective reservations?" Word was immediately sent that all had been ordered back. had been ordered back.

A telegram has been received at the war department from General Coppinger stating that he had crossed the Teton range with his command. The dispatch was forwarded by courier to Market Lake. The Teton range is 25 miles from Jackson's Hole.

HIBERNIANS WANT TO FIGHT.

The A. O. H. Favors An Armed Move ment For the Independence of Ireland. NEW YORK, Aug. 2.—The national officers and directors of the Ancient Order of Hibernians have met and

passed resolutions which are thought to be deeply significant of the future policy of the fut icy of the organization in the United States upon the question of the metho! for forewarding the cause of Irish in

dependence.
The resolutions are said by well-informed Irishmen to mean that the A. O. H. en orses the Irish revolution-ary movement, which seeks Irish inde-pendence by force of arms, although the text does not convey that statement in direct language. The importance of the action taken lies in the fact that it is done in the name of the 500,000 men

JAPAN WON'T BE BLUFFED. ler where he will spend a week with she Will Fight Rather Than Quit Port Arthur Wilhout Her Cash.

WASHINGTON, Aug. 2.- The diplomatic corps in Washington is watching with especially interest at present the settlement of the question of the evacution of Port Author, ly the Japanese, in view of the demand which Russia, France and Germany are reported to ate the entire Liao-Tung peninsula without reference to China's fulfillment of her part of the Shimonoseki treaty obligations. It is made quite clear at the Japanese legation here that Japan will not accede to this demand, if really made, without a vigorous pro-"Japan," said an official of the legs

tion in discussing the contingency, "will fight before she will yield the advant-age she has in the peninsula, without a full settlement of the indemnity awarded her for the surrender of the concession. It is too important a lever to let go of, simply because it may suit Russia's purpose to ask it. It is our understanding here that the evacuation is to depend upon the payment of the indem-nity. Japan certainly regarded the matter in that light when the treaty was amended at the instance of the Europeon powers. It may be claimed that the question is not any longer one between China and Japan, but rather one between Japan and the European countries interested in the settlement; but this position is not tenable. It is China to which Japan must look for the money she is to receive, and it is Chinese territory that is involved in the controversy; and if it is a matter of keeping faith with the European powers, let them make good the indemnity if they do not want Japan to continue at Port Arthur.

"You all know the condition of our streets," said the president as he rose them. to his full height, "and this meeting is for the purpose of considering the best means of keeping them clean. Let each member give his candid opinion and present his ideas and we will know more than we do at

"I think the flushing of the streets is a good method," said Mr. Stewart from his place on the right, "although I do not consider the test of last Saturday night a success. That, however, was mainly due to the nozzle used, and can be remedied, as we do not want the sand washed out, and the paving destroyed. I think the idea is all

"I am like Mr. Stewart," said Member Challis. "The hose will keep the paving as clean as any sweeper, and when the work is done they smell sweeter, and look well."

"I was out the night they washed the streets," said Mr. Kent, "and stayed with the force until midnight. In my mind it is a failure. It washes out the sand and wastes water. Then it is necessary to flush off the sidewalks, which will mean dirt and sand on people's lawns. The men who want street sweeper are business men. They pay taxes, and lots of them, and their request deserves some recognition, particularly when it will do as much good for the rest of the city. Another argument against water is that it wears out hose, and hose costs 45 a section. Tue bricks are made them off. I am in favor of buying a sweeper, because I think it will do what we want at a smaller cost.

There was silence then for the space of half a minute which was broken by Mr. George with the remark that he, too, was opposed to flushing. "It is too expensive for council to tie to," he said, "but something must be done for the streets are in awful condition. I think a sweeper is just what we want.'

Mr. Peake wanted to hear C. O. Hershey, the agent, say a few words, but Mr. Kent got the floor, and reminded them of what had been seen very good work, and improvements had since been added. Challis interbeen told the machine threw dirt on denied as the scheme of those who oppose a sweeper.

"A sweeper is going to cost money. said Mr. Horwell, "and to maintain it will be an expense. I think we could raise this by a vehicle ordinance, and if the two were worked in connection this difficulty would soon be settled. All the money we can get now goes to expenses, and there is a building in a team to haul it to be considered. The streets are already falling into

SOME REASONS.

The New York Advertiser is interested in the coming election in this state. It has heard some one wonder why the Democrats cannot elect the ticket and gives these reasons in support of the assertion that Buckeye people have no use for the Democratic parts:

"The people of Ohio, like those of ried out in stupor from the smoke. every other northern state, have had ample experience in the results of Democratic rule since March 4, 1893

An Agreement Among the Indians to Make Trouble to Get Their Rations In creased-Parties of Utes and Sioux Seen Coppinger Heard From.

MARKET LAKE, Ida., Aug. 2 .-- A courier just in from Rexburg says two white men have been killed by Indians on Trail creek, this side of Jackson's Hole. The mail carrier between Jackson's Hole and Teton Basin is thought to have been killed by Indians. When last seen he was crossing Teton Divide.

A St. Anthony special says: The people of this and surrounding towns are still very much excited over the Indian scare and almost every hour brings fresh rumors. Indians have been seen in the vicin

ity of Marysvale for two or three days past, and live were delegated to ascer-tain what the Indians were doing. The understanding between these men was that they should meet at a certain cabin in the vicinity and at an appointed time. When the men approached the cabin in question they noticed a number of Indians surrounding it, who at once commenced firing. Three of the men returned to Marysvale, but one Wilson and Captain Harris have not as yet re turned, and it is feared that their lives

have been taken.

A Lander, Wy., special says: The Indians are encamped near Oregon Buttes. The people of Dubois are still keeping a sharp lookout. The Shoshones say they are starving and would rather die fighting soldier transport. rather die fighting soldiers than starve There is an agreement among the Ban nocks, Utes, Lemhis and Shoshones that at the proper time, the government will be informed that peace can be secured only by increasing their rations

A Washington special says: Gov-ernor Richards has sent the following dispatch to the commissioner of Indian affairs: "I have reliable information affairs: "I have reliable information that 200 Indians, supposed to be Utes, have been seen near South Pass, Frmont county. Also a party of seve... Sioux on Dead Water creek, same county. All were mounted, armed and without we nen and children. The people of Fremont county are under arms and 1 ady for resistance. Can these and all Indians in Wyoming be called to their respective reservations." called to their respective reservations?"
Word wa, immediately sent that ail

had been ordered back. A telegram has been received at the war department from General Coppinger stating that he had crossed the Teton range with his command. The dispatch was forwarded by courier to Market Lake. The Teton range is 25 miles from Jackson's Hole.

A.P.A.'S PLAN BLOCKED

Nebraska's Governor Acts In the Interest of Peace.

HE WANTS THE NEW LAW TESTED.

It Is Provided That the Act Need Not Go Into Effect For Thirty Days and He Proposes to Wait-The City Buildings Guarded by the Old Police.

OMAHA, Aug. 2.-The governor of the state has blocked for a time the plans of the American Protective assoiation and thus prevented bloodshed. The governor refused to meet Attorney General Churchill and Commissioner Russell, for the purpose of appointing the police commissioners, and in justification of his course, made the following statement:

"Yours of present date calling attention to chapter 10 of the act of 1895 relating to the appointment of fire and police boards in cities of metropolitan lass, and to the provisions of such act.

"You request that said board be convened at the office of the governor Aug. , 1895, at 4 o'clock p. m. of said day, o select three citizens to act as mem ers of the fire and police commission of the city of Omaha under the provisons of said act. Permit me to say in reply that I have considered the proons of the act you have called to my ttention providing that appointments made within 30 days.

'You say 'this phrase doubtless would construed to mean 30 days from and after it took effect,' the act not to take ffect until Aug. 1, 1895, under the generally accepted construction of the conprovisions governing the acts shall take effect when thout the emergency clause. The act in question and all other acts assed without the emergency clause the last legislature have been treated as not taking effect until the first of August of this year. Therefore, under provisions of the act in question, 30 days time remains in which these ap-

ointments may be made. order that there may be no unue haste or seeming desire to precipi-ate trouble, and in view of the doubtful validity of this act, I do not deem it my duty nor consistent with the main-tenance of peace and good order to take uch hasty and precipitate action relato the appointment of a new board. ore, as chairman, decline to all the meeting as requested, or to paripate at the time suggested, in the pointment of a board of fire and poof the act referred to."

Churchill and Russell declare they will appoint the commission themselves right away and let them use force to sere the city property.

Mayor Bemis, when asked what grompted him to issue a riot proclama don, said it was me ely is recau ionary heasure adopted to prevent 1 odshed. He said nothing had occurred in the nature of a disorderly act or a demonstran so far on the streets, but from what he had read in the newspapers it was necessary to put the people on guard against a probable riot.

I am here to enforce the laws of Nebraska, and that I propose to do," declared Chief of Police White, when asked why he had a reserve force of po-lice headquarters and the official police alarm operators guarded. There has en a great deal of inflammatory talk apon the streets, and there have been nflammatory articles printed, and in the event of trouble I want men on hand to suppress it." Editor John C. Thompson of The

American, the A. P. A. organ, has received the following dispatch from Chicago, sent by J. W. Dixon: "We can furnish 5.0 0 armed Americans to put down law breakers in your city at a ment's notice.

WASHINGTON, Aug. 2 .- All of the members of the Waller family are at last out of Madagascar, but their misfortunes continue, and Mrs. Waller, wife of the harassed ex-consul, is now with her little children, helpless and stranded on an island at the other side of the globe. A letter received by Paul H. Cray, Waller's son-in-law, and a dispatch received by the state department from United States Consul Campbell, at the Island of Mauritiua, both contain notification of the arrival of Mrs. Waller and her four children at Port Louis, Mauritius, from Antananarivo, Madagascar, about the middle of

A COOL RETREAT.

Has Every Destrable Facility for an En lovable Sciourn.

Persons desiring to combine recreation, entertainment, instruction and devotion with their summer outing will find Eagle Lake, on the Pennsyl-vania Lines, near Wassaw, Ind., the ideal spot. This pretty resort is the site of Winona Assembly and Summer School, the youngest of the Chautauqua assemblies. The grounds have been well and favorably known as two miles along the eastern shore of Eagle lake, a beautiful sheet of water The grounds have been plotted and pretty cottages constitute the summer homes of persons who find health and rest-giving recreation in invigor ating air amid attractive surroundthe portions laid out for building purposes, a fine park has been made. There is also a race track with overlooking amphitheater, furnishing splendid facilities for out door ath-letic sports. The large auditorium has a seating capacity of 3,000, and the several college halls are used for Assembly purposes. A good hotel, restaurant and supply stores furnish means of living at reasonable rates. A large fleet of row boats, with two steamers, will permit indulgence in boating, and persons fond of fishing may enjoy that pastime to satisfactory extent, as the lake teems with fish. The low tourist rates over the Pennsylvania Lines place these pleasures within easy reach. The rate will be in effect all season from ticket stations on these lines. In addition to the season tourist tickets, a low rate will also be in effect for round trip tickets, good fifteen days. Ticket agents of the Pennsylvania Lines will furnish them, and they may be obtained from agents of connecting lines. The Assembly department opens July 1 and continues four weeks, during which ime prominent speakers will discuss live topics. During August there will be educational work under President John M. Coulter, of Lake Forest uni-versity, in connection with the assem-biv. For details regarding rates of fare, time of trains, etc., apply to nearest Pennsylvania Line ticket agent, or address F. It is made quite clear at the Japanese legation here that Japan will not accede to this demand. if really made, without a vigorous pro-

'Japan,' said an official of the legation in discussing the contingency, "will fight before she will yield the advant-age she has in the peninsula, without a full settlement of the indemnity awarded her for the surrender of the conces-sion. It is too important a lever to let go of, simply because it may suit Russia's purpose to ask it. It is our understanding here that the evacuation is to depend upon the payment of the indem-nity. Japan certainly regarded the matter in that light when the treaty was amended at the instance of the Europeon powers. It may be claimed that the question is not any longer one between China and Japan, but rather one between Japan and the European countries interested in the settlement; but this position is not tenable. It is China to which Japan must look for the money she is to receive, and it is Chinese territory that is involved in the Report comes from Hollow Rock campmeeting ground that a slight let them make good the indemnity if they do not want Japan to continue at Port Arthur.
